Risk Assessment in Industrial Emissions Monitoring

The STA runs a training course on Health and Safety issues relating to stack-emission monitoring. The course covers all aspects of the STA booklet '*Risk Assessment Guide: Industrial Emissions Monitoring*' and meets the requirements of the Environment Agency MCERTS scheme.

The course includes the following;

- 1. Risk Assessment Procedure**
- 2. Hazard Identification**
- 3. Risk Control Measures**
- 4. Work at Height Regulations**
- 5. Platform Inspections**

For prices go to the STA website or use the link below:
